 Training

The University requires safety training classes to be completed before beginning certain types of work. These requirements apply to all individuals involved in the covered work, including faculty, staff, students, postdocs, visiting researchers, and volunteers. To determine which classes you need to take, consult either the:

- Laboratory Safety Training Checklist
- Non-Laboratory Safety Training Checklist

or

To look up your current training status, see the [Online Class Transcript](#).

The following classes are offered by EHS. Click a class name for details and availability. You may also click a department name at left for classes offered by that department, or mouse over the department name for direct links to its online courses:
