Training Classes - Environmental Management

DOT/IATA

This training is required by the Department of Transportation and the International Air Transportation Association to insure safe packing, hazard communication, handling and transportation of dangerous goods in commerce. These regulations are designed to prevent spills that endanger the environment, personnel, passengers, and the general public.

Classes are held in the EQMC Building. Class size is limited and pre registration is required. Contact [Peggy Quisenberry](#) at 323-6290 to register.

DOT/IATA Recertification

DOT/IATA recertification is required every two years. UK Personnel who have successfully completed DOT/IATA training may take this course to satisfy recertification requirements.

This class is available [online](#).

Hazardous Waste

Hazardous waste handling and disposal training is required for anyone who works with chemicals. If you have any questions about this class, please contact [Robert Kalland](#) at (859) 257-3285.

Classes are held in the Young Gallery in WY Young Library. You can also satisfy requirements by taking this class online:

For personnel within any of the following, see [Hazardous Waste Specific](#):

- ~~LIVESTOCK DISEASE AND DIAGNOSTIC CENTER~~
- Center For Applied Energy Research
- CHEMISTRY-PHYSICS BUILDING
- UK HEALTHCARE

All other personnel see [Hazardous Waste General](#).

2013 Class Schedule

- July 18
- August 15
- September 19
- October 17
- November 21
- December 19

Hazardous Waste, General

Successful completion of this on-line course will satisfy the University's requirement for hazardous waste training.

Please note, this course is only for individuals who do NOT work within the following areas. If you work within any of the following, you are instead required to complete [Hazardous Waste Training \(Specific\)](#):

- ~~LIVESTOCK DISEASE AND DIAGNOSTIC CENTER~~
- CENTER FOR APPLIED ENERGY RESEARCH
- CHEMISTRY-PHYSICS BUILDING

After successful completion of the hazardous waste quiz, you must contact your lab supervisor to gain access to your laboratory within the Chemicals system. For waste related questions contact [Duan Butler](#) at 323-5005, or for inventory assistance contact [Robert Thomas](#) at 257-4016.

Instructions

Review the course material. When you are ready to take the exam answer all of the following questions, then click Submit. When you Submit your registration and test, the results will be graded. You must answer 100% of the questions correctly to pass this course.

Course Material

Registration - All fields required unless otherwise noted.

Select a facility first, then choose your primary room or lab.

Write the barcodes numbers of any additional rooms or labs separated by commas (ex: 1234, 5678,) into the "Additional Rooms/Labs" field. Barcodes are usually found on the inside of a nearby door.
